Behind The Company

Crit Hit Ceramics is run by two life-long gamers who love nothing more than a night around the tabletop rolling more 20s than 1s. We set out to produce high quality ceramic dice because discerning gamers, like you, look for unique ways to enhance and enrich gameplay. For many players, a way to do that is with the perfect set of dice.

Some gamers have specific sets of dice for certain characters. Some tabletop players want blocks of d6s to roll damage or use for counters. Everyone knows a mage who is borrowing everyone's d6s to cast fireball. Get him or her a d6 block and end your woes and their scavenging.

All of our dice are handcrafted from a mid-fire clay body, are durable and playable, with a great weight and feel. You will find Standard 7 Die Sets as well as Extended 10 Die Sets. We sell blocks of d6 and sets of d10s apart from our sets. D20s can be purchased individually.
