You will find the prices in this catalog extremely low, despite recent advances in the cost of materials and labor. Our policy has always been to furnish the finest quality equipment that can be produced. This policy has not changed and we have not sacrificed quality in our merchandise.

Prices subject to change without notice.

TERMS

Due to present conditions, a deposit of one-half must be sent with all orders. Where indicated, full remittance is required before order will be shipped.

HOW TO SEND MONEY

You can send money by post-office money order, express order, bank draft or cash by registered letter. Do not send personal checks as they must be sent to your bank for collection before your order can be shipped.

IMPORTANT

To customers ordering from A.P.O. or F.P.O. numbers outside the United States.

Full amount must be sent with all orders as we cannot ship C.O.D. to A.P.O. or F.P.O. addresses outside the U.S.A.

When orders for overseas shipments exceed the weight limit of 5 lbs. or size limit of 15 inches in length or 36 inches in length and girth combined, order must be broken down to conform to these limits. Therefore, additional requests must accompany your order as the postoffice will not accept shipments without a specific request. This particularly applies to larger articles such as punchboards or more than a dozen decks of cards.

FOREIGN SHIPMENTS

Full amount must accompany orders from foreign countries and outside continental United States. This includes Canada, Mexico, Hawaii, Cuba, Alaska, Philippine Islands and the Canal Zone. On foreign orders where consular fees are required, always include the consular fees in your remittance. Remittances MUST be made in U. S. dollars.

EXCHANGES

No merchandise may be exchanged unless it is returned to us in unused first class condition. When merchandise is returned, be sure to write and explain the reason. Your name MUST appear inside the package to avoid any possible delay.

SUPER PERFECT DICE

READ

We spent \$75,000.00 for new machines which enable us to supply dice so accurate that no one else can make a dice more perfect.

There is hardly any other dice maker who can supply a dice which will caliper absolutely perfect and which will measure absolutely square on a knife edge square.

DICE SPOTS

We have perfected a new spot of the same material as the dice itself. This material is fused into the spot and cannot be dug out, even acid will not remove it. It is pure white and will not shrink below the surface of the dice.

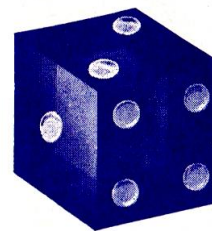

READ BEFORE ORDERING

As we are able to supply polished dice that square up and caliper perfect, with no run down edges or corners (something no one else can do) all dice orders are made with polished finish unless otherwise specified.

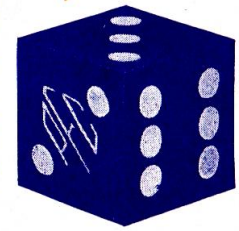

Also all dice are made with the new flush, large size (Jumbo) spot unless otherwise specified.

PERFECT DICE

K. C. Card Co. Perfect Dice are made from the hardest, toughest long wearing material yet produced. No firm can supply a better material as we have developed dice sheeting to a point where its quality is of the highest. Have our dice compared with those of any other manufacturer or by any laboratory and we guarantee that

our dice will outperform anything on the market. With the hardest material ever produced we are able to manufacture Perfect Dice to a degree of precision never before attempted. Furthermore, the material used will not shrink or lose its shape nor is it affected by weather changes. All sides remain perfectly flat and will not become concave or beveled.

Our dice can be embossed with your name or initials in plain letters or with attractive gold monogram free of charge. Special monogram or trademark supplied at a small extra charge to cover the cost of the die which becomes your property and will only be used on your dice. Where dice are to be stamped or monogrammed a full remittance must accompany your order.

Our perfect dice are manufactured in red or green transparent or white and finished in polished, dull, sand or satin finish. Polish finish supplied unless other finish is specified. Secret marks in the material supplied at no extra cost. We regularly supply six standard edges, square corner or razor edge, feather turned, slightly turned, double turned, light round or regular round edges. Always specify when ordering.

DICE SIZES AND SPOTTING

We have two regulation sized dice spots. One is known as Regular Spots, and the other is known as Jumbo Spots, due to the fact they are larger.

Below we picture different dice sizes, showing both sizes of spotting.

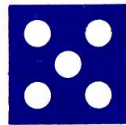

Be sure to mention which size spotting is desired when ordering. Jumbo or Regular. If you do not specify which we always send Jumbo Spots.

DICE MEASURING TOOLS

Precision dice measuring tools are a necessity for every operator of a dice game. Regardless of the care exercised in selecting your dice, the precision tools listed below will help you to properly protect your game.

SLIDE CALIPER

This is a fairly accurate tool for quick measurements. Equipped with a lock-nut, it shows variations to 1/4 of an inch. Made of hardened tool steel and easily carried in vest pocket.

No. A-1. Slide Caliper Each **\$10.00**

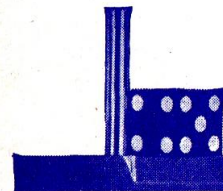

MICROMETER CALIPER

In the hands of a man mechanically inclined this tool is actually the most accurate hand tool made. This micrometer is fitted with a ratchet stop preventing injury to dice by pressure. Shows variations to one-half thousandth of an inch. Made of the best materials obtainable.

No. A-2. Micrometer Caliper..... Each **\$15.00**

TWO-WAY SQUARE

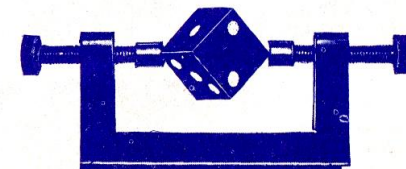

This tool is the newest development in the field of precision tools. It combines the best qualities of a hardened square together with a superangle comparator. Special grooved upright makes dice squaring absolutely fool-proof. Made of highest quality tool steel, hardened and ground. Made to fit the vest pocket. Instructions for use with each.

No. A-5. Two-Way Square..... Each **\$6.00**

BALANCING CALIPER

A new tool which will immediately detect a weighted dice regardless of how light the weight may be. Fast in action with absolute accuracy, this is a tool needed by every dice man. Chrome finish with case hardened pivot joints.

No. A-7. Balancing Caliper..... Each **\$5.00**

A deposit of 1/2 must be sent with all orders.

EDGE WORK DICE

OUR advanced methods of producing this type of work have been copied, but never duplicated. Made in $\frac{1}{8}$ size or larger only.

Our Edge work is made on the hardest dice material obtainable assuring the users of longer wearing work and consequent better results. The life of this work is always limited, however, and we recommend frequent replacement with new cubes.

PEE WEE DICE

In some localities very small dice, or Pee Wee Dice, are very popular. The sizes generally range from $\frac{1}{4}$ -inch celluloid or bone to $\frac{7}{16}$ -inch. Many firms are unable to supply this work satisfactorily. However, with our equipment and skilled mechanics, we produce special Pee Wee work that is even stronger than the same work in large sizes. Our Pee Wee Dice are made in any combination listed for regular dice at no extra charge. Specify exact size of Pee Wee Dice desired or forward us a sample dice and we will match it.

LOADSTONE

Used as a Luck Charm by Many People Who Believe That it Causes Them to Be Lucky in Almost Everything They Undertake to Do. This peculiar Magnetic Stone or Ore has been used for ages as a Luck Charm and is now carried by many people who have implicit faith in its magic powers who would not be without a pair of them.

It is sold in pairs, as many believe that one piece drives evil away and the other draws luck. However, this is, of course just according to your own belief, and our only guarantee is that we sell only High-grade, genuine magnetic loadstone. We buy our ore direct from one of the best mines. It is selected at the mine and again

by us, giving you the best grade we can obtain.

We enclose it in neat chamois bags convenient to carry in the pocket, or strings can be attached and worn on any part of the body.

PERFECTION DIAL MICROMETER

This is the newest, fastest and most accurate tool ever devised for measuring dice. This measuring instrument is rugged in construction and not affected by wear, yet extremely sensitive. The quick acting spindle is lifted by pressing the knurled wheel with the thumb in an upward motion. Releasing the thumb allows the spindle to close on the dice to be measured. The spindle can be locked in any position and used as a snap gauge for the "Texas Mike" dice test. Thousandths of an inch are enlarged by spaced graduations on the dial permitting readings of one-tenth of a thousandth with no possibility of an error.

No. A-3. Perfection Dial Micrometer.....Each **\$28.50**

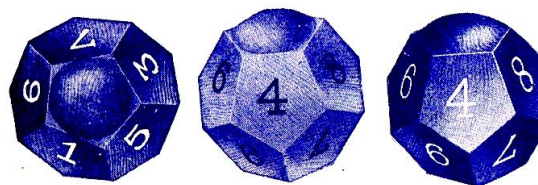

MONOGRAM CANCELLOR

RING SHINER

THIS is one of the finest devices ever made for you to read cards while they are being dealt from the deck one by one. Marked cards are not necessary. Take any deck. Deal a hand to a man and tell him every card. Ring is made with a highly reflective surface and you can see the card clearly even when the light is poor. Nothing conspicuous, nothing to be hurriedly removed, nothing stuck to the palm of your hand; it is just an ordinary looking ring which will arouse no suspicions. Besides being a very practical article, it is also a real neat ring for street wear.

Be sure to take measurements of your little finger as below and we will fit you perfectly.

To determine the size you need, cut a strip of thick paper so that the ends meet when drawn tightly around the little finger. Then lay one end of the strip at the beginning of the heavy line drawn on diagram and order the size indicated by the other end of the strip.

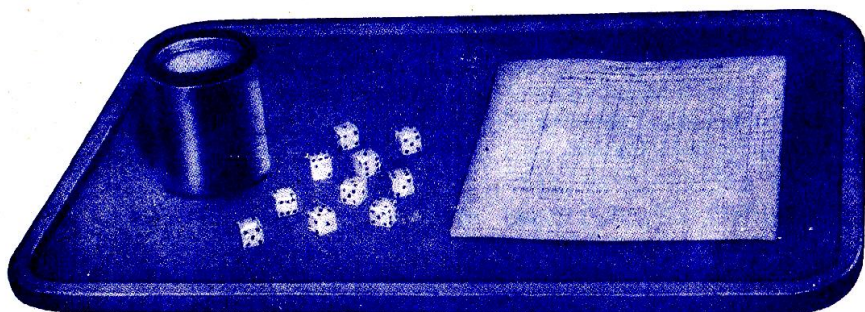

- No. 490. Ring Shiner, Solid Gold Each **\$10.00**

A deposit of ½ must be sent with all orders.
