MASON'S PERFECT DICE

REGULAR CONCAVE SPOT DICE

Mason's Regular Concave Spot is shallow and uniform . . . always dead white in color . . . with no "shoulders" or "rings" visible in the spots. We furnish any depth or size spot by request.

BIRDSEYE SPOT DICE

We make any style of Single Ring, Double Ring, or Single or Double Ring Birdseye spot, as desired, in either sunken or flush spot.

FLUSH SPOT DICE

These dice were introduced by Mason & Co.—designed for the ultra-conservative dice man . . . for the man who demands super-perfect dice which meet the most severe measurement tests. These dice balance perfectly.

MASON'S PERFECT DICE

These dice are supplied with the individual's name in plain letters, numbers, or initialed monograms. This service is extended free of charge.

MASON'S PERFECT DICE are made in all colors, white, and red and green transparent. We supply any finish desired, with choice of high polish, sand finish, satin finish, or lapped finish which is slightly dull. All orders are filled with the lapped finish unless another finish is specified.

Mason & Co. has six standard dice edges, but is equipped to fill any individual edge or corner requirement.

Mason & Co. is the largest buyer of Perfect Dice sheeting in the world. This gives us first choice in the selection of materials, which are carefully examined for clearness, color, hardness, and quality. Every sheet is rigidly inspected before delivery.

Long experience and careful study have assured us the best and most reliable methods for properly seasoning dice material. There is no deviation from our exacting regulations at any time.

Square Edge . . . Edges and corners left sharp

Feather Edge . . . Very slight amount taken off edges

Slightly Turned Edge . . . Twice as much as Feather Edge

Double Turned Edge . . . Twice as much as Slightly Turned Edge

Light Round Edge . . . Same amount as Slightly Turned, only rounded

Regular Round Edge . . . Same as Double Turned, only rounded
