WINTER EDITION

Q-workshop was set up as a commercial enterprise in 2001 in Poznań by Patryk Strzelewicz. For 8 years now we have been producing dice and gaming accessories. Through this time we have created almost 1500 dice designs and accessory products, visited almost a hundred of trade fairs all over Europe and US, received Origins Award for Call of Cthulhu dice and gained respect of gamers all around the world. We create dice on license from such companies as Steve Jackson Games, RebBrick Limited, Pinnacle Entertainment Group - and recently world known Fantasy Flight Games.

Q-workshop dice and other products are distributed in most of the EU countries, US, Canada and most recently Japan. We are expositors on major trade fairs and conventions (Spiel, GenCon) and are sponsors for many conventions all around US and Europe.

Our unusual decorative dice have become an invaluable companion of gamers all over the world, turning many of them into regular collectors and fans. With our yearly Dice Design Competition we give them a chance to participate and create a truly unusual dice set that will become a part of our product range.

We pushed the creation of custom dice and accessories to the next level, offering our skills and experience to clients, giving them a chance to create unique items or the opportunies to add that unusual something to their games and ideas.

We are constantly working on new projects, exploring new materials, paints and patterns, enhancing our production capabilities, searching for partners and gaining even more and more experience with every project we participate in.

Skully dice

Hundreds of skulls sealed on these dreaded dice are literally trying to get out of the surface. First dice created with our exceptional technique of 3D dice, that allows for various effects but still leaves the surface smooth and rolling fine – and with bone-like numbers that only add to the effect.

Skull dice are available in sets of 7 dice (d4, d6, d8, d10, d12 and d20) of variant colour schemes as shown below.

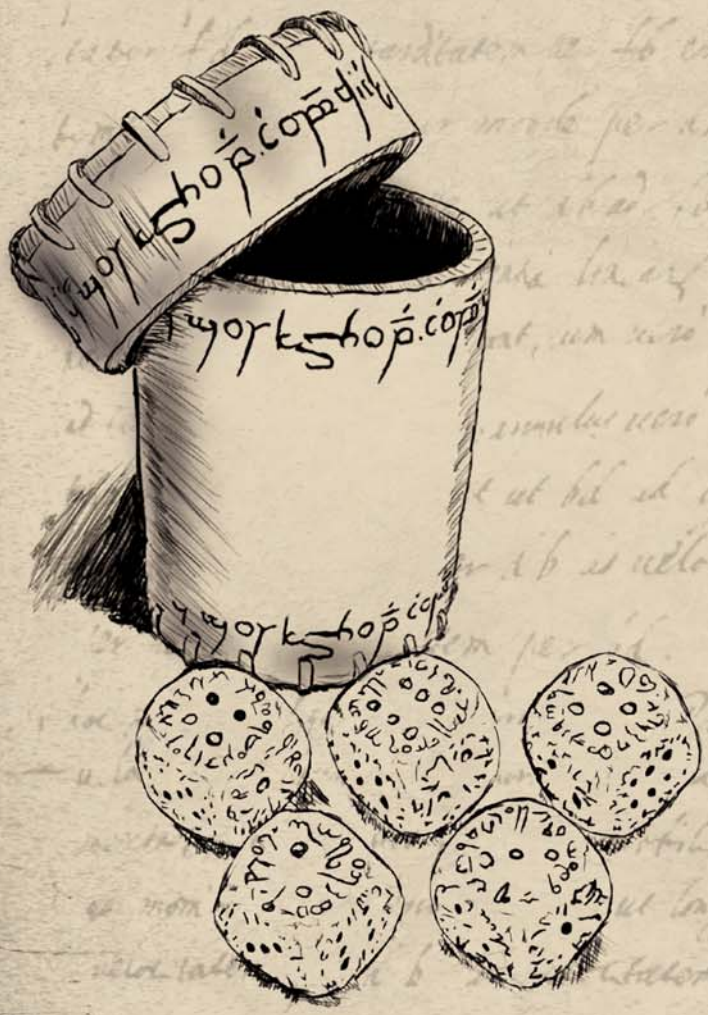
Battle dice



Battle Dice

The effect of our constant contact with our clients and dice fans from all over the world – the dice that were awarded the first prize in our 2007 Dice Design Contest. With size of 11mm and different designs – these dice are perfect for many war games, especially in II World War settings. Both these „Dog Tag" and „Sniper" dice were designed by Thomas Pasieka from Mad Ogre Games.

„Dog Tag" and „Sniper" battle dice are available in sets of 5 dice in designs and colour schemes as shown below.

Accessories

Accessories

Q-workshop also provides gamers with solutions for storing and carrying their dice collections – dice cups and bags.

Cups are made of durable, hard leather. One cup holds up to 3 sets of our dice (21). Each and every one is decorated in one of classic Q-workshop designs.

Dice bags are made of linen and painted with various designs, also availible in all major Q-workshop patterns.

All these products are 100% natural and handcrafted.

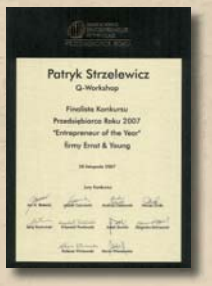
Awards and Distinguishment for Q-workshop company



Q-workshop was a finalist of „Enterpreneur of Year 2007" EOY 2007 competition ran by Ernst & Young. The competition includes the most dynamic and competitive companies from Poland. We were honored to be distinguished as one of best enterprises in our country!

In the year 2008 we have reached finals of "Keep Walking" contest ran by Newsweek Magazine.
The figurine which we received reminds us that you can't cross a chasm with two small steps, you need to be bold enough to make the big one …

Official Call of Cthulhu Dice Set, produced on license from Chaosium Inc. won the prestigious Origins Award in Game Support category, becoming the Game Accessory of the Year 2007.
This outstanding success marks another milestone in history of our company, the first ever winner of Origins Awards coming from Eastern Europe.

CUSTOM DICE

Custom Dice

FROM THE IDEA
TO THE READY
DICE

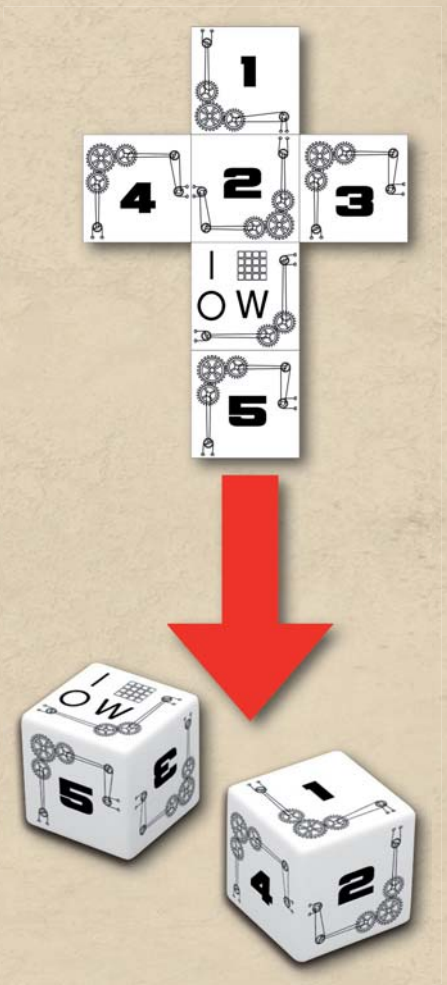
Were You wondering what our dice would look like in other colours?

Are You creating a game of your own and need something special and unusual for it?

Ever thought abort your own personalized dice bag?

Would You like to create your own dice?

Q-workshop offers it's experience and skills giving You a chance to create your very own dice and accessories, be it leather cups or bags.



From the idea to the project

Catching that glimpse of an idea is the most important thing when creating something new. That's why we try to focus on the idea what You want and need – so we can provide You exactly that!

From that general idea there comes the time of getting into details – creating graphic projects, choosing the right patterns for dice or cups.
If You already have a project – that's great! – if not - we can help You to create one!

From the project to a ready made product

Our products are high quality ones – dice and cups or bags will be given our standard treatment giving You the guarantee of receiving a realy unusual product!

The dice will be carved with high-precision machines that will truly allow your dice to achieve the amiazing level of detail! The dice are painted when the carvings are about 1mm deep so that the colours don't wear off after even years of rolling.

When it comes to price – it depends mainly on the number of dice needed, although we don't have a minimum quantity number to create! Even creating one die is something special – and at least You and we know, that it is truly unique! And the complexicity of the design and the number of customized faces is not an issue here!

We estimate the price and the time needed to complete the project individually taking into account your needs.
